CHILDREN'S
CHARITIES**

WHO WE ARE

The mission of Speedway Children's Charities remains true to the ideals it was founded upon in 1982: To care for children in educational, financial, social and medical needs in order to help them lead productive lives. SCC is a nonprofit 501(c)(3) organization and provides funding for hundreds of nonprofit organizations meeting the direct needs of children. Our vision is that every child has the same opportunities no matter what obstacles they are facing.

OUR HISTORY

Speedway Children's Charities was founded by Bruton Smith, then Chairman of Speedway Motorsports and Sonic Automotive, as a memorial and legacy to his son, Bruton Cameron Smith, who passed away at a very young age. Given his experience, Smith became passionate about wanting to help children in need. Speedway Children's Charities was created to focus on communities surrounding Speedway Motorsports facilities. "Our sole concern at SCC is to help a child in need," said Smith. SCC expanded nationally in 1982, and throughout the years has grown to funding thousands of organizations that help children directly with everything from educational support to the basic need of a coat or a simple meal.

WHAT WE DO

Speedway Children's Charities is more than just a fundraiser. Our local chapters are partners in change, working with a broad range of people and organizations to identify and resolve pressing issues dealing with children in their communities. Because of the unique conditions in every community, the issues Speedway Children's Charities addresses are determined locally. Marcus Smith, Chairman of Speedway Motorsports, continues the mission with a vision to provide greater-impact funding to the daily challenges facing orphaned and foster children, those from broken homes, and those who have been a victim or affected by sex trafficking. Although priorities for Speedway Children's Charities are set locally, we have one common goal - to ensure every child in need be given the tools to build a better, brighter and healthy future.
